

Certificate of Excellence in Global Management

Navigate the global business world with the only executive program certificate that gives you access to 20 elite business schools.

Created for ambitious global leaders, the Certificate of Excellence in Global Leadership lets you curate your own learning journey from a selection of results-based courses on five continents. Explore the complexities of working across borders and join a network of globally minded peers.

A PERSONALIZED JOURNEY

We built the certificate to give leaders the flexibility to achieve their unique professional goals and access a variety of action-oriented programs across the globe. Each participant crafts 15 days of learning at three or more business schools in two or more countries.

LEARN FROM WORLD-RENOWNED FACULTY

Explore the differences between economies—as well their points of connection—by taking courses on the ground taught by renowned regional experts at the world's top business schools.

A GLOBAL ADVENTURE

The certificate program is a truly global experience; you'll attend courses in at least two countries and at at least three different schools. Programs often include opportunities to get to know the area through cultural events, local foods, and visits from regional experts.

The mission of the Global Network for Advanced Management is to drive innovation and create value by connecting leading global business schools, their resources, and their stakeholders. Launched in 2012, the Global Network includes 30 leading business schools from diverse regions, countries, cultures, and economies in different phases of development. Member schools connect their students, faculty, staff, alumni, and other constituencies so that they can deepen their understanding of differences and commonalities in their economies and increase their effectiveness.
